

Volunteer Program Annual Reporting Procedures

Explanation of Procedures

A. Sections 1 and 2 are self-explanatory. Section 3 requires the total number of program participants for the fiscal year. The category of "program participants" includes volunteers and hosted workers.

B. In Section 4 list the total number of hours contributed by volunteers in each of the benefitting resource areas listed. These are the hours contributed by persons who receive no stipend or salary, but who may be reimbursed for personal expenses incurred in conjunction with their volunteer service.

C. In Section 5 list the total number of "hosted worker hours" contributed to the benefitting resource. Hosted workers are those who volunteer for BLM, but do receive a salary or stipend from sources other than BLM.

D. Under Section 6(a) list BLM funds expended for materials, supplies, or other items in support of volunteer projects.

E. Under Section 6(b) show the dollar value of work hours donated (volunteer and hosted workers combined). Calculate this figure by multiplying the total hours worked by the current GS-7 hourly rate of \$11.79.

F. Under Section 7, highlight project successes and outstanding volunteer or employee profiles. In order of districtwide priority, include a short and concise paragraph describing a project, an outstanding volunteer, or significant contribution of a BLM employee to the program. The statewide report will include all stories, however, only the top project for each district will be included in the WO national report. Please include a contact person and telephone number for each project narrative.

G. Under Section 8, include descriptions of any special events or projects. Submissions are limited to one paragraph for each event and/or project.

H. News clippings, photos, etc., about volunteers, events and/or projects are encouraged for all submissions.
